ingenico GROUP

Link/2500 Companion

Flawless design for a clever payment companion

- Specifically engineered for flexibility to accept all payment methods including NFC/ Contactless, Apple Pay and Samsung Pay
- Slim and robust, dedicated to mobility
- Shorten time to market by leveraging TELIUM applications into a smart companion

PCI PTS 5.x security · smartcard · magstripe · contactless · color display · bluetooth

compatible with iOS windows android

TELIUM TETRA

With the Link/2500, Ingenico brings payment acceptance to any mobile solution.

Highest security
The Link/2500 is PCI-PTS 5.x certified. Its Telium Tetra OS uses the latest cryptographic schemes with future-proof key length.

All payment options
In addition to EMV Chip & PIN and swipe, Link/2500 supports the broadest range of contactless standards allowing NFC couponing and wallet use cases.

Seamless integration
Link/2500 facilitates the in-store integration due to its agnosticity. Thanks to WiFi and Bluetooth capability, connect any iOS, Android or Windows-based tablet or smartphone. Link/2500 can be directly connected to the back office for transactions routing.

Best fit to any use case
Due to its wide options panel and its two form factors, Link/2500 is able to perfectly suit to any mobility use cases, and specifically in terms of compactness & autonomy.

Designed for mobility
Featuring a pocket-sized, light weight and slim design the Link/2500 is built for the most demanding use, wherever you go.

User-friendly and intuitive interface
Featuring an edge design, Link/2500 is user oriented with its bright 2.4" colour display, a mechanical keypad and a USB-C connector which can be plugged upside down.

Secure Telium TETRA OS
Backed by 35 years of experience and with its user-friendly interface, the Telium TETRA operating system includes the best security mechanisms embedded to protect transaction privacy and leverages Ingenico's unique portfolio of payment applications.
